Practical Information for Exchange Students

Student Housing

Choosing where to live while studying is a big decision and it's important to take the time to find out what's available and what would best suit your needs. Based in the heart of Lincoln's city centre, student accommodation at the University is located either on our Brayford Pool Campus or just a short distance away.

Most accommodation at the University of Lincoln is en-suite with a small double bed and shared kitchen. All utility bills and WiFi are included in the weekly fee. Private housing in the city can sometimes be cheaper but, bills will be an additional cost.

For **semester-only students**, there is usually a limited number of designated University student housing options available (most UK student housing is rented on full academic year basis), which is not confirmed until one month prior to the start of semester. The cost varies depending on the accommodation.

How to book your Student Housing:

1. Accept your offer
2. Use your student ID to apply for your accommodation
3. The Accommodation office will contact you shortly after to start your booking

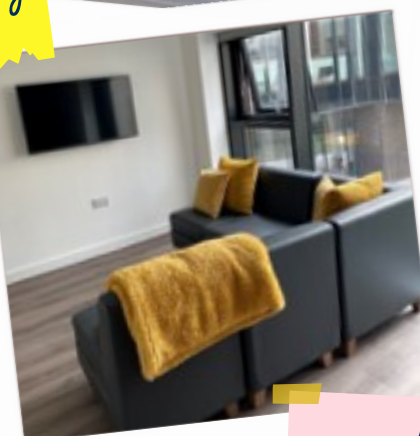

You can apply online for University Accommodation (student housing) once your application has been processed and a Student ID number is issued (you must accept your offer before applying for accommodation). Please visit our [accommodation webpages](#).
