

Why would I recommend SMK as an Erasmus exchange institution? There are many students from various countries, so everyone can find someone from their own culture or country. At the same time, Lithuanian students are open and friendly, making it easy to integrate and feel welcome. SMK offers modern facilities and practical teaching methods, which enhance the learning experience. The supportive faculty and staff are always ready to assist, ensuring a smooth transition into this new academic environment.

TOMAŠ KIRDEIKA

SMK ISN president

I chose SMK for my Erasmus exchange after hearing positive feedback from former students, and I'm glad I did. The experience has been enriching—I've made new friends, enjoyed engaging classes with Mr. Samson, and participated in fantastic ISN events led by Tom. It's been a memorable journey discovering the Baltic region and growing both academically and personally.

Programmes Offered for Exchange Students

INTERNATIONAL BUSINESS

(ISCED CODE: 0410 Business and Administration)

This study programme prepares professionals in International Business who are able to create, manage and develop international businesses. Students gain the skills to excel in diverse organizational environments amidst evolving markets.

PROGRAMMING AND MULTIMEDIA

(ISCED CODE: 0613 Software and Applications Development and Analysis)

This programme is dedicated to training programming specialists capable of designing, developing, and managing applications, websites, databases, multimedia, and animation products to enhance organizational processes.

VIDEO PRODUCTION AND MEDIA

(ISCED CODE: 0211 Audio-visual Techniques and Media Production)

This programme is designed to prepare video creators to produce media content independently and collaboratively using contemporary video production principles and new media technologies. Students will engage in innovative and responsible practices in local and international audiovisual markets.

MARKETING AND ADVERTISING

(ISCED CODE: 0414 Marketing and Advertising)

Marketing and Advertising study programme focuses on the preparation of highly skilled marketing and advertising specialists operating in both national and international markets. Graduates will excel in implementing tailored marketing solutions and projects, creating modern advertising campaigns aligned with target segments.

GENERAL PRACTICE NURSING*

(ISCED CODE: 0913 - Nursing and Midwifery)

The General Practice Nursing study programme focuses on science and evidence-based practice. The students are prepared to have a deeply holistic approach to health, provide safe, high-quality services to society, apply modern technologies in professional activities, and help clients form positive attitudes toward improving health and quality of life. The aim is to provide care for sick patients, prevent disease progression, and promote public health.

Experience Living in Vilnius, Lithuania - the Centre of Europe

Welcome to Vilnius - A City of Opportunities: Explore Vilnius, a city that blends modernity, tradition, and vibrant student life.

A Part of the Dynamic European Union: Since 2004, Lithuania has proudly been a member of the European Union. This integration is reflected in our rapidly growing economy and the educational excellence we uphold.

Modern City and Breathtaking Nature: Vilnius seamlessly blends urban exploration with natural retreats. The city offers a safe, friendly, and inspiring atmosphere for students from all places of the world.

Empowering Your Career Aspirations: Vilnius fosters entrepreneurship with ample internship and job opportunities for career-driven students.

International Students Network (ISN) - Your Gateway to a Global Learning Community at SMK

International Student Network (ISN), is a student organization dedicated to ensuring your academic, social, and practical integration into our global learning community, offering a unique blend of cultures, perspectives, and ideas. Our mission is to foster an environment where all students grow together, not just academically, but also personally and culturally as our calendar is brimming with events designed to enrich your university life.

Join Us and Grow Together!

At SMK ISN, we believe that every student brings something unique to our community. Join us, and let's grow together in knowledge, friendship, and understanding.

SMK College of Applied Sciences

Established in 1994, SMK College of Applied Sciences stands as a premier institution in Lithuania, excelling in private higher education. Boasting the largest student body among private colleges in the country, with over 4500 enrolled students, including approximately 250 international students, SMK offers a dynamic and diverse learning environment.
